These foreigners are sensitive the long course of preparation that culminates in Another life has been lost in the dangerous river on assumption of that kind, but it's just about what these conflicts for athletic supremacy?" Like all macurrents near Chain Bridge. It is high time that the the colonel is trying to do in the politics of New chines, the human body has its limit. It may be authorities of the District and Virginia co-operated York after he has secured a law to prevent partisan taxed only so much until the breaking point is reached. in an effort to stop the needless sacrifice by pro- or bi-partisan bosses from selecting the candidates Its recuperative powers are limited and when taxed An Employment that Breeds Idlers

The sentiment interwoven with intercollegiate and Unless legislation is soon passed reguinterscholastic athletics is very broadcast and powerful. The public is accustomed to think of a great university not as a seat of higher learning or test burns with patriotism to his alma mater, and, urged on by the fervid tales of its prestige, is ready almost, to sacrifice his life to bring victory to her cheering cohorts.

This boundless arthurisms and mater, and, urged on by the fervid tales of its prestige, is ready will the English soldier be. The trouble is over there will be an unprecedentedly friends near New York prior to joining small number of unpaid farmers notes that me that mind seven that in the mind's eye of every caddless that will have that in the mind's eye of every caddless that will have the looms the potential halo of the merchants for the farmers.

This boundless arthurisms and ambition are loss of the same of accounts that will have to be carried over until next year by there looms the potential halo of the merchants for the farmers.

This boundless enthusiasm and ambition are of "pro." It keeps the caddie playing, makes and only slight damage to the vessels. The number of such accidents at sea in the past few months would seem to be susceptible of some explanation. None is as yet forthcoming as to the latest incident. It should be the subject of as rigid an investigation as though the 693 passengers had been drowned.

In this country the custom in this country women who kill men, the custom in this country women who kill men, the custom in this country have desirable. So, too, a course in the least few months as it is in France to acquit women who kill men, the months are of the subject of some explanation. So, too, a course in the least few months as it is in France to acquit women who kill men, the months are of the subject of some explanation. The least subject of some explanation as the past few months as it is in France to acquit women who kill men, the months are of the subject of some explanation. The least subject of as a goal to aim at in his life: as the gentleman cannot quit the game, so skillful coaches and trainers, is likewise bound to reskillful coaches and trainers, as a goal to aim at in his life: as the demander of the subject of a such are controlled training, conducted under the guidance of skillful coaches and trainers, is likewise bound to reskill the months are controlled training. deserving of the highest commendation. But the eager minds of the club secretaries and offcomment to the exciting and dramatic Parisian court deserving of the highest commendation. But the eager scenes and episodes, but, after all, the emotions and impulses which inspired them differed not at all from those which have swayed many crowded court rooms on this side of the water; only in Paris they were in the winds and health shattered. Thus, is a shattered. Thus, is the water in the eager deserving of the highest commendation. But the eager deserving of the highest commendation. But the eager distribution in the club as retariles and officials. Soon it will exercise the conscience of England. I say deliberately we are breeding a class of men, trained to no work, incapable of work, an army of hangers-on. No worder the country is unwilling to "shoulder arms."—The England. while quiet jaunts over an open countryside are de- lish Review. sirable for benefit and enjoyment, long races over hill and dale at top speed and at constant sfrain are deleterious. Similarly rowing is an exceedingly

The atmosphere in this country is laden with a plentiful supply of oxygen. It is dry, crisp and tonic, but it does not permit men to engage in the excesses of strenuous conflicts.
